Generations Living Together

After watching the Creative Caregiving videos, a father was inspired to get his children involved in the caregiving process. He talked to his parents about their caregiving experiences, and was reminded of three important things:

- Life is precious and people need patience, so take your time whenever you're in the company of loved ones.
- All creativity deserves celebration. It doesn't matter the skill level.
- Be encouraging to loved ones to make healthy choices that make them feel good. The arts help with that. You are enough. But there are resources for the times when that's hard to believe. That's why these videos are so helpful.
